
JUSTIFICATION

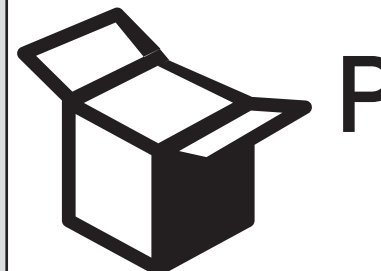

A PCTO management system is needed.

SMART OBJECTIVE

Make the PCTO management less difficult for its manager.

BENEFITS

Easier PCTO mangement.

PRODUCT

PCTO management system.

REQUIREMENTS

Database containing students, tutors and companies data.

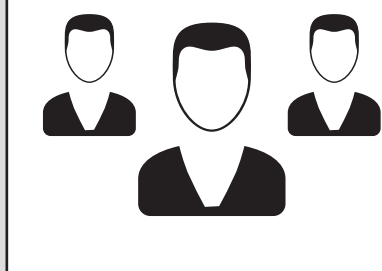

Spaggiari data integration. (with exports).

Access to the local authentication system (AD).

Time.

EXT STAKEHOLDERS

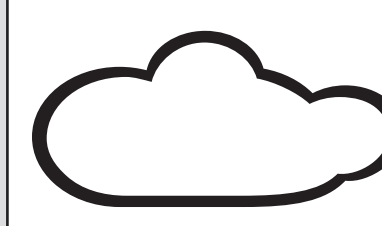

ITI Marconi.

TEAM

Bonoldi Enrico,
Ambrosi Marco,
Lorenzoni Luca.

CONSTRAINTS

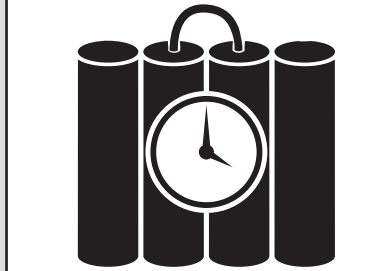

The realization of the project implies a dependence on the data that needs to be provided to us by the PCTO manager.

ASSUMPTIONS

The development of the project will probably slow down due to our dependance on figures and systems which are external to the team.

DELIVERABLES

PCTO manager, possibly other schools.

RISKS

If the project is not stable, the whole PCTO management system is blocked.

TIMELINE

We will deliver a beta version of the project in December and the final version in May.

COSTS

There are no costs yet.
